This year our theme is “Build a Better World.” This means we will be learning all about building things, using tools, taking care of the earth, working together as a community and so much more. The program begins the first week of June and runs through the end of July. Prizes are awarded to children who log their reading minutes and report them to the library. Our program is designed for children ages four through twelve, with an additional program for our younger patrons. Each week we will hold

classes in the library to help get the kids excited about reading and working together as a community.

If you are interested in being a community sponsor for one of the weeks, please contact Miss Andrea at the library.

Encouraging your child to participate in our summer reading program can be a major factor in helping them retain their reading skills throughout the year.

Music and Movement @ YOUR Library

Music and movement is an essential part of learning for our younger patrons and we have designed a special program just for them. Come shimmy, shake, move and groove with us this summer.
